

Meeting 16.02.17

Thursday, 16 February 2017 11:00

Imbalanced classes

Images too big to load them all

Pre-train: Inception, ResNet, VGG16

Try color and gray channels (much blood distorts the colors)

PREPROC: Using the ImageNet dataset and equalize format

PREPROC: Output hdf5 file, have parameters for colors and other features
